

S.CS UNIVERSAL X-LIGHT SMART Curtainsider Semi-Trailer

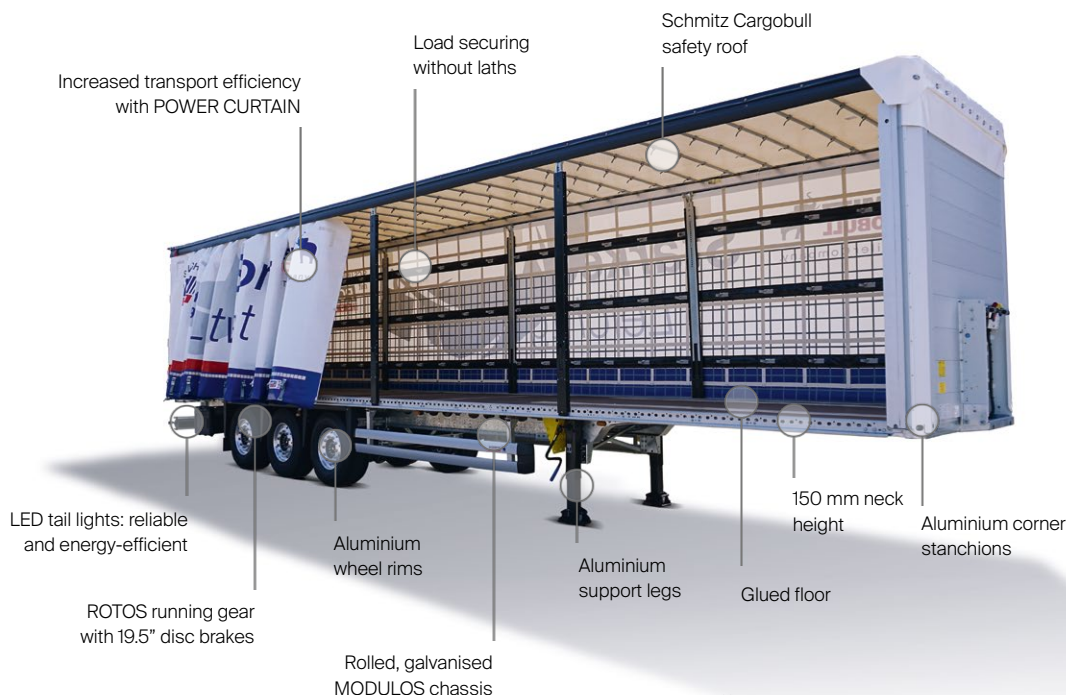

The 'Strong Lightweight' with Greater Payload and POWER CURTAIN

The Benefits at a Glance:

- 100% SMART – TrailerConnect® telematics system is standard ex works. Hardware and basic service can be used immediately
- Weight and payload-optimised trailer thanks to the intelligent combination of steel and aluminium components in the chassis and body
- New generation, rolled, galvanised MODULOS chassis – easy to maintain with a 10-year warranty against rust-through
- Tyre pressure monitoring by TrailerConnect® immediately possible – if sensors* are mounted on the tyre
- Unladen weight from 4,975 kg for a higher payload
- More loading volume due to adapted neck height
- Efficient transport solution for heavy and flush-loadable packaged goods with high loading frequency
- With POWER CURTAIN* equipment for quicker loading and unloading times and simplified load securing due to omission of support laths
- POWER CURTAIN* fully certified: for DIN EN 12642 Code XL with beverage certificate and DL Directive 9.5* and – new – with additional equipment certified for tyre transport*

Easily Transport More!

The S.CS UNIVERSAL X-LIGHT SMART Curtainsider Semi-Trailer offers maximum Payload through Weight Savings with Chassis Optimisation

TrailerConnect® Telematics System

Including CTU hardware and basis contract ex works*

POWER CURTAIN – The ideal combination with all X-LIGHT models

Built-in anti-theft protection by means of steel wires incorporated in the tarpaulin to prevent intentional damage to the curtain.

Easy handling: rear load securing using built-in tarpaulin loops in three rows e.g. for tensioning belts or safety tarpaulins.

Comprehensively certified – optional version with additional equipment** for tyre transport and other goods that place heavy loads on the side curtain in the case of form-fit loading.

Illustrations may include optional equipment. *Offer not available in all countries. **Option
